

Soundbite Endpoints

Last updated by | Erik Ralston | Aug 9, 2023 at 7:03 AM PDT

This article describes all of the API endpoints utilized by the Soundbite platform, from our first-party APIs to integrated third-parties. This is useful for white-listing URLs in closed networks.

Soundbite Platform

This is a list of domains presented by the Soundbite APIs, including REST endpoints and content delivery.

Domain	Description
